lars Against Five Hundred.—Beleving that the decision of the Committee of the American Institute on Darguerreotypes was not a fair and just award, founded upon the comparative merits of the pictures exhibited, but was result of other influences, I do hereby protest against it, so far as my own specimens are concerned. I will stake \$1,000 against \$500 that no Daguerrean artist exhibited at the late Fair, or at any previous Fair of the American Institute, twenty-nine pictures of equal sizes, displaying each for each the same amount of skill and fidelity to nature as my own there exhibited. The fact of a gold medal having been awarded in 1840 or Daguerreotypes, and the present year a silver medal, would seem to indicate that the art of Daguerrotyping had retrograd d in this country. The trath, however, is, that the art has greatly advanced, and, therefore, it behalf of the Profession at large, as well as in justice to my own reputation as an artist, I offer in good faith, \$1,000 is half that amount on the issue I propose, that the question be decided by five competent and impartial judges, to be fairly chosen, in such a way and manner, as may hereafter be doernined upon by the party accepting the challenge and my zelf. All that I desire is a fair field and no favor; I am ready to put down the money and abide the test forthwith.
